

THIS IS LONG DRIVE!

The Michael Brown Invitational Pro- Am and Monday evening's final long drive shoot out is one of the premier events in Southern California! The event will be held at The Huntington Club in Huntington Beach, CA. Initial commitments have been received from multiple World Long Drive Champions and other top ranked WLD tour players. These professionals have been wowing spectators and Golf Channel viewers around the world. Don't miss this event as the worlds longest battle to divvy up a purse of \$35,000

The Huntington Club re-defines the private golf club experience. Blending the time-honored traditions of golf with modern, upscale conveniences, the club boasts a magnificent J. Press Maxwell-designed championship layout; an array of golf, tennis, fitness, dining and social amenities.

EVENT SPONSORSHIP OPPORTUNITIES

TITLE SPONSOR*

Make this premier event yours! As the Title Sponsor, your brand will be THE commercial partner linked to all aspects of this high profile World Long Drive Tour event.

PREMIER SPONSOR*

In addition to being featured prominently in pre and post-event promotional materials, the Premier Sponsor will experience the power of Long Drive up-close.

NOVEMBER 8-9, 2026

A MUST-SEE EXHIBITION OF POWER FOR A GREAT CAUSE

The Michael Brown Invitational is a unique cancer fundraiser that will showcase the world's longest golf professionals. In association with Driving Out Cancer (DOC), this is the 12th time this exciting event has come to Southern California. This special two-day event includes a Long Drive Event, Concert, Pro-Am Tournament and Taste of SoCal!

On November 9, 2026, 36 Long Drive Professionals will gather in Southern California to raise money for pediatric cancer research and compete for the Michael Brown Invitational Championship. Amateur participants will get front row seats to the power of long drive as the event will air on national television.

Last year we funded UC Irvine Anti-cancer challenge by providing funding for research toward promising new treatments through clinical trials, including the RAPTOR studies. Researchers are evaluating innovative therapies such as amivantamab combined with Lazertinib, as well as cemiplimab and BL-B01D1, to help people with advanced lung cancers, including those with EGFR-mutated, ALK-positive, and metastatic disease. These studies aim to find safer, more effective treatments that can slow cancer growth, improve quality of life, and give patients access to the latest advances in precision medicine while helping shape the future of cancer care.

This year we are especially excited about the project we will be funding! They call it Velcro for cancer cells, and they gave it a cool name - Glitter!

Scientists at UC Irvine have developed a new cancer treatment called GlyTR (pronounced "Glitter"). GlyTR attaches like Velcro to special sugar molecules which are found in high density on many types of cancer cells. Once attached, GlyTR helps the body's immune system find and destroy the cancer. Driving Out Cancer plans to help fund this research as it moves from the laboratory to clinical trials, and finally to standardized treatment. This is a game-changing breakthrough and can potentially be effective for treatment of many different types of cancers

MB INVITATIONAL LONG DRIVE TOUR EVENT

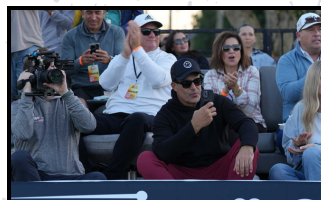

The Long Drive Event of the MB Invitational will follow the on course qualifying format. Monday's on course qualifying will take place while amateurs are playing with their pro. Every pro will hit 3 balls on each of the par 5's earning points. Points will accumulate on each par 5 and the top 8 point earners will enter into the final 8 match play finals for the prize purse and crown of MB Inv. Champion.

SUNDAY NIGHT CONCERT

The concert for Driving Out Cancer's fundraising features food, live entertainment, and auctions. Guests will enjoy tableside magic by Danny Magic and tastings of whiskey, wine, and martinis, with opportunities to mingle with celebrities like Goose Gossage and Tyler Rich.

MB INVITATIONAL PRO-AM TOURNAMENT

This is a chance for amateurs to play golf with the world's longest golf professionals. Players will be able to choose their team for the Pro-Am but the pro will be determined randomly. However, the major and corporate sponsors will be paired with long drive professionals who have the best career record. Teams will play a scramble format with the option to play the pro's drive and use the pro's score. All Pro-Am participants are invited to relax and unwind following the tournament by enjoying food, drinks and front-row seats to Monday's final long drive shoot out.

REGISTRATION
